

## Analysing Baseline Data – what’s it telling you?

<b>Baseline data</b> Note your sources of information / data here	<b>Analysis – what’s the data telling you?</b> About pupil learning and achievement. About staff knowledge and practice.	What further evidence might you need to establish or confirm your baseline?
What does this analysis tell you need to work on in order to make a difference for your pupils? Do you need to adjust your enquiry focus / research question / expected outcomes?		
Your plan of action. What will you do next? What strategies will you trial? How will you track whether they make a difference and, if so, what kind of difference?
